Rates are subject to change at any time. The Annual Percentage Yields given above are based on the assumption that dividends will remain on deposit until maturity. Any type of interest withdrawal will reduce earnings. Please refer to the Personal Fee Schedule or uvacreditunion.org for additional account information.

¹ See early withdrawal penalty information in the Truth in Savings Disclosure.

² Members may choose to have dividends credited to a related sub-account on a monthly basis.

³ For an even higher initial APY at account opening, just fund with additional new money to UVA Community Credit Union (UVACCU). New money is defined as funds not on deposit at UVACCU as of the date of certificate account opening. Opportunity to earn higher APY with new money is outlined in the table above. Aggregate total of 7-month and 18-month promotional certificates initial opening deposits may not exceed \$500,000 per member. This offer is not valid on IRA, SEP, or Education Savings Certificates. UVACCU reserves the right to end or modify this offer at any time without notice. Certificate holder also may elect to add new money one-time during the term of the certificate. New money added under this election will earn the same initial dividend rate at certificate opening. Total new money added under this election may not exceed the initial certificate deposit, up to \$250,000, and combined aggregate in 7-month and 18-month certificates may not exceed \$750,000.

⁴ APY for this tier is calculated up to a balance of \$1 million.
